Pool control at its best!

dinoTouch

Starway motorized
backwash valve

The smart dinoTouch+ includes as standard nearly every feature desired in private swimming pools. Now, we are adding a brilliant new function: electric control of the motorized backwash valve with the dinoTouch+. Everything you need is included – at no extra cost.

This dynamic duo offers savings on expensive pressure valves and compressors, reduced installation complexity, with maximum ease of use and an all-inclusive package!

PS: This feature is also compatible with our dinotecNET+ ready!

All inclusive:

- Automatic backwash control via (electric) motorized backwash valve
- Measurement, control, dosing
- Filtration and heating control
- Temperature control
- Control of multistage filter pumps or frequency converters
- Control of attractions
- Lighting control
- Roller cover control
- Remote control and maintenance
- And much more...

Simply enjoy the best water!

Filter management made easy and efficient: Starway motorized backwash valve with dinoTouch⁺

At last! A 5-way backwash valve that works without a compressor or complex water pressure installation – simply driven by an electric motor. You save on expensive pressure valves, compressor, installation time, and maintenance.

The valve is operated via a 24 V power supply, which is standard in dinoTouch⁺ and dinotecNET⁺ ready systems.

Smooth position changes ensure a stable pressure, eliminating fluctuations. This protects your filter system, including pipework and connections.

A carefully designed system guarantees the required safety even during a power failure.

Technical data:

Product name:	"Starway" motorized backwash valve
Art. no.:	0960-130-00
Type:	5-way backwash valve
Operation:	Electric (no compressor required)
Power supply:	24 V DC (2A)
Max. operating pressure:	2 bar
Center distance:	125 mm (other sizes available upon request)
Connections:	DN40/D50 (other sizes available upon request)
Material:	AISI 316 L (stainless steel), VITON® seals
Safety:	Leak protection during power failures
