SwimLoop

Developed with Olympic athletes

Turn your swim training into a high-tech experience. Our AI-based SwimLoop app is the heart of our system. It connects via Bluetooth to our innovative sensor which is integrated into your swim belt.

With SwimLoop, you get detailed statistics after swimming and can also monitor them in real-time. Leave stagnation behind - SwimLoop helps you make steady progress and achieve your goals faster than ever.

SWIM TRAINING AT HOME

Measuring stationary swim training in your own pool was previously impossible.
The SwimLoop system, based on artificial intelligence, makes it a reality.

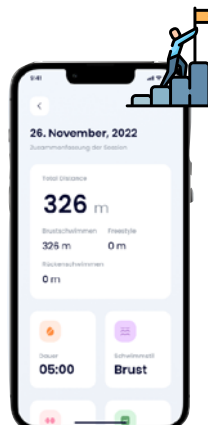

EFFECTIVE HOME TRAINING MADE EASY

1. Secure the SwimLoop to a stable point using the Velcro strap.
2. Attach the swim belt to the other end of the SwimLoop.
3. Create your own swim training program with the SwimLoop app.
4. Put on the swim belt and start your swim training. The app automatically records your activity.

AUTOMATIC SWIM ANALYSIS WITH DATA INSIGHTS

Use our app to interpret your swim data and create an overview of your performance parameters. Benefit from detailed insights and track your progress. Optimize your swim training and achieve your goals.

TRACK YOUR PROGRESS

Every swimming session you complete adds new data to your profile. Check your statistics to see how your swimming style, strokes, and performance have improved over time. Use the detailed insights to track your progress and achieve your goals.

SET PERSONAL GOALS AND CHALLENGE YOURSELF

With our app, you can push your limits. Set a target distance and track your time, or compete against your previous sessions.

LIVE SPEEDOMETER FOR YOUR SWIM SESSIONS

The SwimLoop app keeps you informed during your swim sessions and allows you to track your performance in real-time. This helps you to achieve your goals and improve your performance.
