## POOL CARE THAT IS FUN

Our swimming pool cleaning robots work fully automatically and do not require any supervision during the cleaning process. They work during day or night, around the clock, in any weather.

Independent of type or shape of your pool. The cleaners are easy to use and work automatically, leaving you with more time to do things you enjoy.

OUR RANGE

## POOL CLEANERS

## CF 3000CL PRO

The wireless, agile, and connected pool cleaner for all pools

### PRODUCT INFORMATION

- + Cordless
- + Ultra-compact design
- + Cyclonic suction provides consistent and long-lasting cleaning performance.
- + Unmatched maneuverability: intelligent navigation, 2 traction motors.
- + Exclusive CF Group design.

App control

- **Super practical:** The cleaner moves freely without cables getting tangled or caught on pool ladders or other obstacles. It is lightweight and easily stored in its practical charging station.
- **Long-lasting suction power:** The patented cyclonic suction power ensures strong and long-lasting performance of the cleaner. The spiral brush, wide suction inlet, and 4 liter filter effortlessly collect all types of debris, even the largest.
- **Unique maneuverability:** With its intelligent sensors (accelerometer and gyroscope) and 2 traction motors, the CF Pro series offers excellent pool coverage and remarkable maneuverability. The cleaner works in all types and shapes of swimming pools and on all types of surface.

POOL CLEANERS

# CF 2000 PRO / CF 1000 PRO

Automatic swimming pool cleaners

## PRODUCT INFORMATION

- + New range of automatic cleaning robots: 2 models that cover all needs.
- + Cyclone technology ensures constant and long-lasting cleaning performance.
- + Unique agility: intelligent navigation, 2 drive motors.
- + Ergonomic and easy access to the filter from the top (Top Access).
- + For all pool shapes and surfaces.
- + Exclusive CF design.

Control box

- **Long-lasting suction power:** The patented cyclone technology ensures a long service life of the robot. The spiral brushes, the wide suction inlet, and the 4-liter filter effortlessly pick up all types of dirt.
- **The spiral brushes** ensure a continuous flow between the front of the cleaner and the suction inlet located underneath the device to prevent larger debris from being pushed forward.
- **Unique agility:** With its intelligent sensors (accelerometer and gyroscope) and 2 drive motors, the CF Pro series offers excellent pool coverage and unlimited agility. The cleaners work in all pool types and shapes and on all kinds of surfaces.
- **Easy handling:** The filter is accessible from the top and makes regular emptying easy. Water is drained very fast, allowing effortless removal of the cleaner from the pool.

	<b>TRANSPORT CADDY</b> Suitable for CF Pro series	 <b>CADCFPRO</b>	C

## CF 2000 PRO

- **Two-stage filtration:** The CF2000 Pro is equipped with 2 filter baskets, one for fine and one for coarse dirt. Together, they offer a larger filter surface area than a single filter basket.
- **Connected:** The iAquaLink app allows starting or stopping a cleaning cycle, selecting the cleaning mode, and tracking cycle progress. Software updates can be automatically transmitted to the cleaner.
- A **swivel** prevents the cable from becoming entangled.
- **Transport caddy:** For safe storage and transport.

POOL CLEANERS

# POOL CLEANER Magnum

### PRODUCT INFORMATION

The Magnum is perfectly suitable for public and private pools with a pool length of up to 25 m (or approx. 500 m<sup>2</sup>). It offers a fully automatic cleaning of walls and floor spaces for all pool shapes. A powerful cleaning capacity ensures that any kind of dirt is removed. Even larger objects, as are frequently found in public pools, will not stop the Magnum. With the help of the radio remote control, dirt can also be targeted for precise cleaning. A transport caddy is included in the delivery of the Magnum.
