POOL CARE THAT IS FUN

Our swimming pool cleaning robots work fully automatically and do not require any supervision during the cleaning process. They work during day or night, round the clock, in any weather.

Independent of type or shape of your pool. The cleaners are easy to use and work automatically, leaving you with more time to do things you enjoy.

Our floor cleaners allow you a targeted and efficient cleaning of your whirlpool, Quick-Up pool, gutter drain, etc.

POOL CLEANER

POOL CLEANER AquaCat SUPER

PRODUCT INFORMATION

Fully automatic cleaning robot in plastic housing, ready for operation. Universal cleaning unit for floors and walls, suitable for all swimming pool shapes and surfaces with an area of up to 200 m².

Remote control via app for a precise control of the cleaner.

With Easy Filter Service (EFS), filter can be removed from the top - for an easy emptying and cleaning. Filters are reusable, filter mesh 15 microns. Height-adjustable suction ports, brushes made of special plastic (Magic-Klett-Brush). Including floating cable, power adapter and transport caddy.

Also in terms of quality, the AquaCat SUPER sets a milestone. No more drive belts, but a robust gear system instead. As a result, the warranty has been extended to 4 years!

See the following examples.

Source: Drumlife Production / Stotinka

POOL CLEANER POOL CLEANER VIRTUOSO

PRODUCT INFORMATION

The VIRTUOSO cleaning robots provide a fully automatic and thorough cleaning of all pool shapes and surfaces up to 200 m². After completion of a cleaning job, the VIRTUOSO shuts down by itself.

Thanks to the intelligent navigation system (Gyro) the clever cleaner covers the basin in an optimal way. Pool owners are happy about reduced cleaning cycles and a lower energy consumption. Even in case of special requirements such as beach pools with their flat outlets, the VIRTUOSO provides a thorough cleaning.

The particularly adhesive 'Magic-Klett' PVA brushes are a special quality feature of the VIRTUOSO.
